Company founder Albrecht Jung

Progress as tradition

Worldwide, JUNG stands for pure design and future-oriented solutions. For more than 110 years, innovation, passion and precision have guided our product developments. Lighting, shading, climate control, energy, security, door communication and multimedia – our systems offer the right solution for every requirement.

With over 1,700 employees, 21 subsidiaries and independent sales and partner organisations in 80 countries, we are represented on five continents. Whether private, commercial or hotel construction: Architects and planners all over the world rely on innovative solutions from JUNG. Our building technology is used in the Reichstag building in Berlin as well as

in the Musée des Confluences in Lyon or the Shangri-La Hotel in Singapore. We develop and manufacture components for classic electrical installations and intelligent systems for building technology – always with the highest precision, according to German quality standards and true to our principle of “progress as tradition”.

WE ARE JUNG:

1912

Medium-sized family business in the third generation

Design and quality made in Germany

Around 1,700 employees

21 subsidiaries and more than 80 agencies worldwide

One range, three designs

ECO PROFİ STANDARD

ECO PROFİ DECO

ECO PROFİ UNIVERSAL

Narrow or wide frames, a variety of colours, matt or glossy – the JUNG ECO Profi switch range offers the right design for every interior style.

ECO Profi Deco in
matt graphite black

2-gang switch in anthracite

ECO Profi Standard

The organically curved frame gives ECO Profi Standard an elegant air of movement, making it appear both expressive and delicate. The optimum ratio of frame to insert gives the design a particularly harmonious look. ECO Profi Standard fits to young interiors and a casual style mix and is available in seven colours.

ECO Profi Deco

The ECO Profi Deco frames harmonise with elegant stucco mouldings and ornaments. The successful combination of modern lines, classic design elements and nine stylish colours makes the range the ideal companion for traditional furnishing styles.

Classic elegance

SPECIAL DESIGNS

ECO Profi Deco in antique* (lacquered)

ECO Profi Deco in gold* (lacquered)

Creative inspiration, long-lasting quality and high functionality: the special ECO Profi Deco versions in antique and gold meet these aspirations particularly well. The hand-lacquered frames are made to order and set accents wherever the focus is on sophisticated elegance.

ECO Profi Universal

Practical simplicity: the clear and timeless design of ECO Profi Universal is particularly well suited to modern interiors. The range is available in four purist colours – always stylish and harmonious.

Covers

Thanks to its modular design, ECO Profi offers a wide range of functions. The frames can be flexibly combined with different covers. These include light switches, sockets, rotary dimmers, chargers and multimedia connections –

the insert determines the function. The frame and cover colours can be freely combined to suit individual tastes. ECO Profi thus offers a wide range of design and colour variations that blend harmoniously into any interior.
